

Guarantee, Refunds and Shipping Information

Guarantee

With continued use to clean out your vehicle's engine, we guarantee that your overall savings will exceed the cost of our product. In other words, you will likely MAKE MONEY using our product.

Need an example? If you achieve an average MPG improvement of 10% on your vehicle even at only \$2.00/gallon of fuel, you are saving 18.2¢ on every gallon of fuel compared to your cost before using our product. A 4oz bottle of our product treats 160 gallons of gas or 100 gallons of diesel. That is a savings of \$29.09 for gas or \$18.18 for diesel with each bottle used. Subtract the cost of our product (\$12.95/bottle when purchased by the 2-pack) and you have made yourself \$16.14 on each bottle when used for gas, or \$5.23/bottle when used for diesel. That reflects savings on fuel alone; your maintenance costs will also likely decrease. By keeping your engine cleaner, your oil change cycle can be extended. The product ends up costing you nothing and you have actually MADE MONEY! If fuel prices rise or you use a larger size bottle of our product, the amount you make is even more.

Because of the great number of variables affecting fuel economy (tire inflation, weather, traffic conditions, driver technique, etc.), it is impossible to guarantee an exact level of improvement for any particular vehicle or engine. However, the average improvement in fuel economy for fleets on over a billion fleet miles (variety of vehicles and engines) has been 8% to 12%. Individual consumers tend to get higher returns. An individual vehicle may experience greater or lesser fuel economy improvement. Vehicles with higher mileage on them tend to require a longer timeframe to clean out the combustion chamber and engine. Concerns with performance of our product should be addressed to Info@FuelSaverInc.com or call us Toll Free at 866-768-7811. We will work with you to resolve your concerns.

Refunds

To receive a refund on all unopened product, you must return the unused product in good condition to the following mailing address:

FuelSaver Technologies, Inc.
3472 Research Parkway, Ste 104
PMB 204
Colorado Springs, CO 80920

A refund check will be sent to your designated address for all unopened product (less initial shipping costs). Return shipping is at your own expense.

Shipping Information

All shipping is currently done by UPS Ground, United States Postal Service Priority Mail, or trucking/shipping firms. Orders are typically shipped within one day of receipt. Please allow 5 to 10 working days for receipt of your order. Concerns should be addressed to Customer Service: by e-mail at ContactUs@FuelSaverInc.com , or call 719-622-6046.

We appreciate your business and we will do our utmost best to continue to earn it.
